## CONSTRUCTION FOR HANGING A PUNCHING BAG

Foldable construction for hanging one punching bag.

Made of steel, protected against corrosion by powder coating in white RAL 9003 (other colors upon request).

The construction can be attached directly to a wall or pillar. The folding mechanism allows to set the arm parallel to a wall when the bag is not in use.

The construction is equipped with a self-locking blockade, which prevents unwanted folding.

Projection of the arm: 1300 mm.
