## SPORTS & ENTERTAINMENT SEATING

**husseyseating**<sup>™</sup>

YOUR PARTNER FOR SEATING SOLUTIONS

## More than just a game

A fan's seat is often the foundation of their entire experience at a game or event. Shouldn't your seats have as much thought put into them as you've put into the rest of the fan experience? We think so.

Here at Hussey Seating, we know a comfortable fan is a returning fan. That's why we put so much thought into designing our seats specifically for spectator events. Details like recessed hardware, ergonomic contours, and durable components combine with our decades of expertise to create comfortable seats that last season after season.

Our tradition is to listen to you, understand your unique needs, and collaborate with you to create the perfect solution. The result? Seating tailored specifically for your venue, no matter what type you need and where you need it. Durable seats that can stand up to thousands of spirited people, year after year. And comfortable fans who can't wait to come back for more.

## Designed to Perform

Our decades-long history of seating the biggest and best sports facilities has provided us with a wealth of knowledge that makes our products the most reliable performers in the industry. We are dedicated to bringing our world-class quality to seating projects of every size.

Whether you are seating a few hundred fans or tens of thousands, Hussey Seating offers you the same quality, comfort and engineering innovation that we use in our professional-grade installations around the world. From small schools and local amphitheaters to leading universities and pro sports venues, Hussey delivers the perfect seating solution for your space. No one can offer more expertise in spectator seating of every kind, backed by an unrivaled network of local experts ready to assist you for the entire life of your seats.

SOLUTIONS

# Long-Lasting Quality

Hussey offers the most reliable line of fixed chairs in the industry today. Our Fusion™, Legend™, and Quattro Extreme™ chairs have the proven strength and easy-cleaning convenience to withstand even the most raucous crowds, harshest weather conditions and messiest concession foods — year after year. We maintain strict quality controls throughout the production process, using state-of-the-art molding and solid cast aluminum or cast iron standards for all of our chairs. And it's all backed by the industry's best warranty.

Fusion Seats  
Florida Atlantic University • Boca Raton, FL  
HKS and Schenkel Shultz Architects

**FUSION™**  
Combining invincible strength with style and comfort, Fusion features contemporary lines, a smooth polished finish and unrivaled performance.

**LEGEND™**  
It's seating fit for a legend. Designed for comfort, durability and value, Legend is a classic choice for the ballpark and beyond.

**QUATTRO EXTREME™**  
Get the luxury of an upholstered indoor chair with the durability of an outdoor stadium seat when you choose Quattro Extreme.

## SOLUTIONS

# Fusion™

The Fusion seat is the successful result of years of product development and testing. Combining the best features of two prior models – the invincible strength of the Olympiad and comfort of the Medallion – Fusion was born. Designed to stand up to the elements and rigors of a demanding sports and entertainment venue, Fusion seats will last season after season. Plus, the Fusion seat is contoured for ergonomic support to improve the spectator experience. And with contemporary lines and a smooth, polished surface, the seat looks as good as it feels.

Fusion Seats  
El Dorado High School • El Dorado, AR  
CADM Architecture Inc.

Sturdy solid cast aluminum stanchions are rust-proof and remain cool to the touch, even under the hot sun.

Ductile cast iron hinge arms and threaded steel metal-to-metal fasteners add durability.

For extra comfort and style, the seat features no exposed hardware, and the through bolts on the back are recessed.

Choose from a wide range of standard or custom colors to complement your stadium and team colors.

For greater flexibility, we offer a complete line of accessories and custom options.

### Bringing Fusion™ Indoors

Bring the comfort and durability of Fusion to your indoor fixed seating. Talawanda High School in Oxford, OH chose Fusion seats for their fixed indoor gymnasium due to the exceptional comfort and easy installation into their existing concrete bleachers.

### Preferred Seating

Not only does Fusion withstand the outdoor elements, it also creates impressive and comfortable preferred seating areas. These areas often bring in more revenue for boosters and team funds.

## SOLUTIONS

# Legend™

Ballpark seating gets a new lease on life with the classic Hussey Legend. Designed for comfort, durability and value, the Legend is equally at home in minor-league ballparks and schools as it is in big-league stadiums and arenas. Beyond the ballpark, Legend can be a versatile choice in many different venues, including indoor facilities.

Legend Seats  
Safeco Field • Seattle, WA  
NBBJ & 360 Architecture

Legend™ features a durable, blow-molded slatted back with a durable polymer seat.

Available with padded or upholstered seats.

Includes detailed cast iron standards that can be customized for your facility with an integral cast logo.

Choose from a wide range of standard or custom colors to complement your stadium and team colors.

### Bringing the Legend Indoors

Beyond the ballpark, the Legend can be a versatile choice in many different seating applications. At the Conseco Field House arena in Indianapolis, Legend chairs were used exclusively to maintain a consistent look throughout the facility. Hussey provided a combination of all-plastic Legends, padded Legends and custom-engineered fold-down Legend chairs mounted on Hussey telescopic platforms. This unique indoor installation has proven to be a hit with the owner, the architect and the fans alike!

### Comfortable in the Spotlight

When the Arizona Sports and Tourism Authority undertook a \$20 million renovation of Tempe Diablo Stadium in Tempe, AZ, they turned to Hussey Seating to provide the experience, the expertise and the right seating solution, the Legend chair.

SOLUTIONS

# Quattro Extreme™

Quattro Extreme combines the luxury of an upholstered indoor chair with the durability of an outdoor stadium seat for your open-air seating. Rugged and weather-resistant, Quattro Extreme has rust-proof stanchions, corrosion resistant hardware, and marine-grade fabric to protect your seats while offering spectators the most comfortable outdoor seating experience.

Quattro Extreme Chairs  
Florida Atlantic University • Boca Raton, FL  
HKS and Schenkel Shultz Architects

Solid cast aluminum stanchions won't rust, even if the finish is nicked. Each component is finished individually before assembly, which ensures full encapsulation for maximum protection against the elements.

Stainless steel hardware is corrosion-resistant.

Exterior-grade plastic and marine-grade Naugahyde resists UV light and mildew.

Inner seat and back panels feature marine-grade plywood made from Okuome wood veneers (naturally resistant to moisture and mildew) and water- and boil-proof (WPB) glue.

### Outdoor Luxury

Make an impact on your most important revenue-generating guests with luxurious fixed seating that will hold up to the elements. We'll help you create a custom layout like we did at Arrowhead Stadium in Kansas City, MO, that's sure to impress even your most exclusive of guests.

### Custom Logo

Put the final touches on your VIP seating areas with a custom logo on the end of each seating row.

## Special-Needs Features, Options and Accessories

Innovative options, accessories and special-needs features put Hussey in a league all our own. Hussey Seating gives you the flexibility to customize a solution for any venue — including innovative features to keep your facility compliant with all ADA, state and local regulations regarding special-needs access.

### ADA Solutions

#### Flip-up and Armless Chairs

We offer solutions for semi-ambulatory spectators who need to easily slip into a regular seat. The flip-up arm allows access into end-row chairs and can be easily flipped down for a full armrest once the patron is seated. Both types can be used for standard seating when maximum capacity is required.

#### Skid-Mounted and Companion Chairs

Seats are mounted on skids for standard seating, and the entire assembly can be unbolted and removed at a moment's notice to accommodate wheelchair patrons. Adjacent chairs remain available for companion seating. Sections are available in 2-chair (approximately 46"/1168 mm) or 3-chair (approximately 66"/1676 mm) widths to fit one or two wheelchairs.

#### Roll-A-Way

This feature is made from floor mount stanchions attached to a steel base with tubular supports. Four swivel casters are mounted on hinged plates to either fold underneath for easy mobility or fold up out of the way when secured to the floor. Available in 2-chair (approx. 46"/1168 mm) or 3-chair (approx. 66"/1676 mm) widths to accommodate one or two wheelchairs. Adjacent companion chairs can be permanently installed.

#### In-Fill Decks

To help you meet ADA code, the top two rows of chairs below the cross-aisle or concourse are removable, and can be in-filled with an aluminum platform at the same elevation as the cross-aisle. Wheelchair patrons can wheel across the concourse and directly onto the platform. When not needed, this flexible option allows you to recover the two rows of fixed chairs, maximizing your facility's revenue potential.

### Standard Colors & Options

#### Fusion & Legend Colors

Nine standard colors are available for all chairs; custom colors are available on request.

#### Quattro Extreme Colors

Five standard colors are available for all chairs; custom colors are available on request.

Note: Production molded parts and paint colors will vary from printed samples shown. Please request a production sample or color chip when selecting an actual color.

### Options & Accessories

#### Integral Logo

Your team or facility's logo can be integrated into each chair's cast iron end stanchion. Vinyl appliques can be added to color the logo.

#### Fusion™ Logo Plate

With Fusion's optional logo plate, graphic or cast logos can be applied at time of installation or at any point in the future.

#### Padded Backs

For extra comfort, soft padded backs on our Fusion chairs are a popular option.

#### Padded Seats

Foam and fabric pads add style and comfort to any of our polymer chairs.

#### Upholstered Seats

Add cushioned comfort with a fully upholstered Quattro Extreme™ seat while maintaining the rugged practicality of a blow-molded polymer back. Or combine with a padded back for even more comfort!

#### Redirected Seating

Seats can be angled 12 degrees towards home plate, reducing neck strain. (Legend standards only).

#### Expansion Joints

Various plates are available for different attachment methods to accommodate expansion joints in the seating bowl.

#### Cup Holders

Cup holders can be attached to chairs for spill-proof convenience. Multiple styles and configurations are available, including back-attached (bolt-on or clamp-on), wall-attached and rail-attached.

## Seating Layout & Dimensional Data

Our Legend™, Fusion™ and Quattro Extreme™ chairs come in a variety of configurations to suit any purpose. Using the options on the previous page and the drawings and information listed here, you can choose any combination of these chairs to develop a custom Hussey Seating solution.

### Calculating Row Length

These examples illustrate how to maximize the number of seats and calculate spacing for your custom design solution.

- End spacing is 2" (51 mm) per aisle end for a total of 4" (102 mm) per continuous row.
- Note that many row lengths have varying chair size combinations not shown in these examples.

#### General Notes:

- All Pre-Cast or Poured-in-Place concrete treads must be a min. 4" (102 mm) thick with the top 2" (51 mm) clear of rebar.
- All Pre-Cast or Poured-in-Place concrete risers must be a min. 4 1/2" (114 mm) thick. Proper anchorage will require the first 3" (76 mm) to be free and clear of rebar or any other obstruction.
- All normal concrete must have a min. strength of 3000 psi for proper anchor attachment.
- All light weight concrete must have a min. strength of 5000 psi for proper anchor attachment.
- All steel risers must be a min. 1/4" – 3/8" (6-10 mm) thick Grade A-36 steel.
- All wood floors must be a solid min. 1 1/2" (38 mm) thick.

## Sustainability

At Hussey Seating, respecting the landscape we live in—and the hard work and well-being of the people we work with—has always been in our DNA and part of our heritage. Our commitment to environmentally friendly business practices has taken many forms over the years as standards and technology have changed.

In the 1970s, when the rest of the nation began to become more environmentally aware, we had already laid walking trails and planted a tree farm on our beautiful Maine campus. Today, going green means developing environmentally friendly paints and finishes, sourcing sustainable woods and metals, going beyond local and national regulations in clean manufacturing and waste disposal, and making deliveries on time while reducing our carbon footprint. We reduced our air emissions by 90% while tripling our seating business, so we know green business is good business.

Hussey seating solutions come in a wide range of colors—but every day our seats get greener. If you'd like to learn more about our sustainability efforts, please visit our website at [www.husseyseating.com/sustainability](http://www.husseyseating.com/sustainability)

## Hussey Seating Company™

The Hussey Seating Company story dates back to 1835 with William Hussey's tremendously successful plow design, and thus, the Hussey Plow Company was born. As times changed over the next sixty years, the family set about reinventing the business, evolving into the company that is now seating the world. Today, under the sixth generation of family leadership, Hussey Seating Company is proud to be known as the leading manufacturer of seating solutions throughout the world – in stadiums, arenas, schools, universities, colleges, places of worship and anywhere people gather.
